

Asus Eee PC 1008ha Trackpad Mouse Clicker Replacement

Replacement Guide for the trackpad's mouse clicker (used to select items with the mouse)

Written By: Michael Dooley

INTRODUCTION

This guide will provide aid in replacing mouse clickers for users experiencing problems with the mouse clicker such as sensitivity. The user will remove the keyboard and simply unscrew the part.

TOOLS:

- [Flathead Screwdriver](#) (1)
- [Phillips #00 Screwdriver](#) (1)

PARTS:

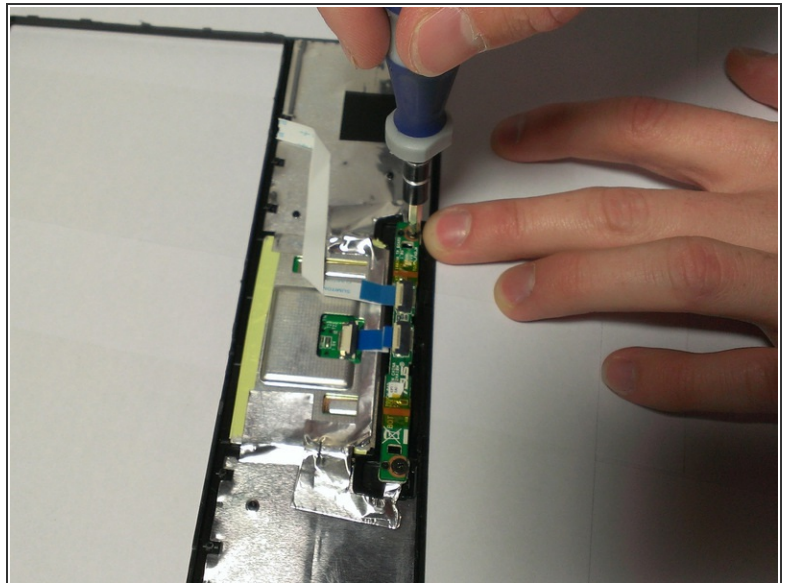

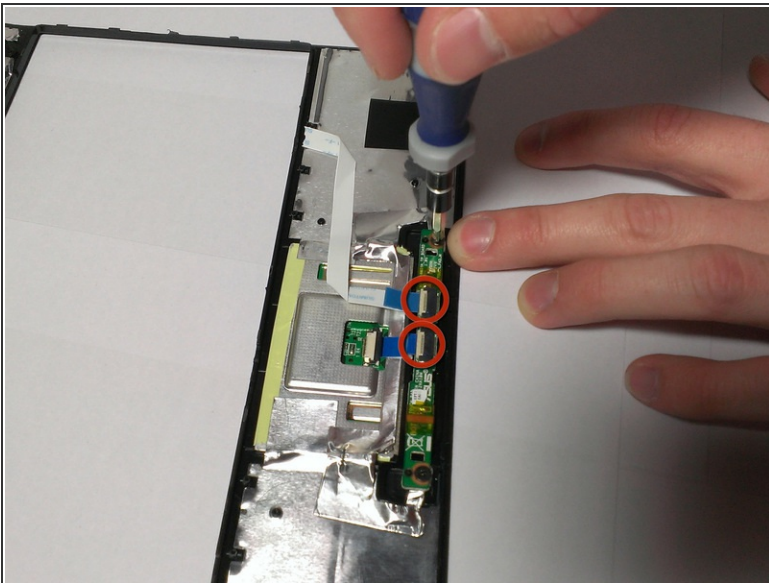

- [Replacement clicker](#) (1)

Step 1 — Trackpad Mouse Clicker

- Use flathead screwdriver or a similar tool to carefully remove top panel of base

Step 2

- Pull up on small white locks on ribbons (circled in red) to release ribbons
- Unscrew the two 4mm screws on either side of the circuitboard to remove broken component

To reassemble your device, follow these instructions in reverse order.
